Note. Students with master's degrees in Counseling Psychology or related fields may petition to have their coursework reviewed with the possibility of having certain course requirements waived. Waivers are granted after reviewing syllabi and other course materials and following successful admission to the doctoral program. While some requirements may be waived, most students find that about 4-5 courses may be waived as a result of this review process. Thesis documents and practicum experiences are reviewed using this same process. Students with completed master's degrees in fields unrelated to counseling psychology should assume that no course requirements will be waived.
